SOMETHING FOR ADMIRERS OF BASE BALL.

DESCRIPTION BY BRICK POMEROY.

Eureka! Look at this brace of hands, once soft and pretty, now suffused with the Egyptian blushes. Then look into those optics and tell us tales of sympathy. And look at that Mount Tom on our right cheek-bone. Base ball! That is

the row. It came about thus. Secondary deployment is too shirksome for the system. The doctor said we needed exercise. Doctor knows. He told us to join base ball; we joined. Bought a book of instructions, and for five days studied it wisely if not too well. Then we bought a sugar-scoop cap, a red belt, a green shirt, yellow trousers, pumpkin colored shoes, a paper collar, and purple neck-tie, and, with a lot of

other delegates, moved gently to the ground. There were two nines. These nines were antagonists. The ball is a pret'y little drop of softness, the size of a goose-egg, and five de-grees harder than a brick. The two nines play against each other. It is a quiet game, much like chess, only a little more chase than

There was an umpire. His position is a hard one. He sits on a box and yells "fowl." His duty is severe!

I took the bat. It is a murderous plaything, descended from Pocahontas to the head of may be found from 8 a, m., to 6 p. m , daily: John Smith. The man in front of me was a pitcher. He was a nice pitcher, but he sent the balls hot. The man behind me was a catcher. He caught it too!

The umpire said "play." It is the most radical play I know of, this base ball. Sawing wood is moonlight rambles besides base ball.-So the pitcher sent a ball toward me. It looked pretty coming, so I let it come. Then he sent another. I hit it with the club, and hove it gently upward. Then I started to walk to the first base. The ball lit in the pitcher, or his hands, and somebody said he caught a fly. Alas, poor fly! I walked leisurely toward the base. Another man took the bat. I turned to see how he was making it, and a mule kicked me on the cheek. The man said it was the ball. It felt like mule, and I reposed on the grass. The ball went on !

and us nine went out. This was better. Just | well as Peruvian, and it costs but two-thirds as I was standing on my dignity in the left | the price of that article. field, a hot ball, as they called it, came skyrocketing toward me. My captain yelled, "Take it!"

I hastened gently forward to where the ball was aiming to descend. I have a good eye to measure distances, and saw at a glance where alongside of any manure he may apply.
the little ærolite was to light. I put up my Woolston's Amoniated Bone Phosphate. This the little erolite was to light. I put up my hands. How sweetly the ball descended .-Everybody looked—I felt something warm in my eye!—"Muffin!" yelled ninety fellers.—
"Muffin' be d——d! Its a canon ball!"— For three days I've had two pounds of raw beef on that eye, and yet it paineth!

Then I wanted to go home, but my gentle captain said "ney." So I nayed and stayed.—
Pretty soon it was my strike. "Brick to bat!"
yelled the umpire. I went, but not all serence as was my wont. The pitcher sent in one hip high. I missed it. He sent in another neck high. It struck me in the guilet. "Fowl," yelled the umpire. He sent in the ball again. This time I took it square and sent it down the right field, through a parlor window-a kerosene lamp, and rip up against the head of an infant who was quietly taking its—nap in his or its mother's arms. Then I slung the bat and meandered forth to the first base. I heard high words and looked. When I slung the bat I had with it broken the jaw of the umpire and was fined ten cents.

The game went on. I liked it. It is so much fun to run from base to base just in time to be put out, or to chase a ball three-round of a mile down hill while all the spectators yell 'muffin!' "go it!" "home run!" "go round again or go round a dozen times!" Base ball business. For samples of oil and circulars adagain or go round a When it came my turn Baltimore Md., enclosing 25 cents and postage to be put out, or to chase a ball three-fourths to bat again, I noticed everybody moved back about ten rods! The new umpire retreated twelve rods. He was timid! The pitcher sent 'em in hot. Hot balls in time of war are good. But I don't like 'em too hot for fun. After a while I got a fair clip at it, and you bet it went cutting the dasies down the right tield. A fat man and his dog sat in the shade of an oak enjoying the game. The ball broke Baltimore wholesale prices.

CHARLES W. GREEN, one leg of the dog and landed like a runaway engine in the corporosity of the fat man. He | jy 5 tf was taken home to die!

Then I went on a double quick to the field and tried to stop a hot ball. It came toward lie and dealers with his me from the bat at the rate of nine miles a minute. I put up my hands, the ball went the most healthy and pleasant drink over made. sweetly singing on its way with all the skin Price \$1.50 per dozen. from my palms with it.

More raw beef! That was an eventful chap who first invented base-ball. It's such tun. I've played five SMALL SUGAR-CURED HAMS, George & Jenkin's, Family Lard, Mushroom Creekers games, and this is the glowing result:

Twenty-seven dollars paid out for things. One bunged eye, badly bunged. One broken little finger.

One bump on the head. Nineteen lame backs. A sore jaw. One thumb dislocated. Three sprained ancles.

Five swelled legs.

One dislocated shoulder, from trying to throw a ball a thousand yards. Two hands raw from trying to stop hot balls. A lump the size of a hornet's nest on my left

hip, well back. A nose sweetly jammed, and five uniforms spoiled from rolling in the dirt at the bases. I have played two weeks, and don't think I like the game. There is not a square-inch on, in or under me but aches. I sleep nights dreaming of hot balls, "flys," "fowls," and descending "sky rockets." I never worked so hard since Ruth stole wheat, and never was so lame since the burning of Huss.

game. It's fine exercise-a little easier than being run through a threshing machine, and counts.

I've looked over the scorer's book, and find ten windows in an adjoining house, killed a baby, broke the leg of a dog, and mortally injured the bread-basket of a spectator, knocked five other players out of time by slinging my bat.

and knocked the wateriall from a school marm who was standing twenty rods from the field, a quiet looker-on. I've used up fifteen bottles of arnica liniment, five bottles of lotions, half a raw beef, and am so full of pain that it seems as if my bones were but broken bats, and my legs the limbs of a dead horse-chestnut, instead of the once

FERTILIZERS, &c.

GUANO AND FERTILIZERS.

The subscriber has on hand a full assortment of the most approved MANURES, which he is prepared to sell in any quantity desired, at the LOWEST MARKET RATES. As the prices are uniform the farmer can obtain his supplies as well by correspondence as though he were to purchase in person.

I OFFER: Peruvian Guano, of the best quality.
Bolivian Guano. This article comes from the same section as Peruvian, which it closely resembles in texture and appearance. GUANO.-REED'S AMMONIATED SU-PERPHOSPHATE OF LIME.-The best superphosphate yet offered to the farmer, possessing all the activity of Peruvian Guano, but being far more durable in its effects.

It contains a large amount of animal matter in a highly concentrated form, which, combined with its soluble bone phosphate of lime, cannot fail to render it very valuable as a fertilizer .-Notwithstanding we believe it to be the best super-phosphate in the market, yet, by a prosuper-phosphate in the market, yet, by a process peculiar in its manufacture, whereby the expenses are lessened, we are enabled to sell it very low, with a liberal discount to dealers.

MEDICAL.

REPARATOR CAPILLI. Throw away your false frizzes, your switches,

your wig-Destructive of comfort, and not worth a fig. Come aged, come youthful, come ugly and fair, And rejoice in your own luxuriant hair. REPARATOR CAPILLI,

For restoring hair upon bald heads (from whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon ba'd heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living wit-nesses (from their own experience) can bear witness. But many will say, how are we to distinguish the genuine from the spurious? It certa nly is difficult, as nine-tenths of the different preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli; it will cost you nothing unless it fully comes up to our representations. It your druggist does not keep t, send us \$1, and we will forward it, postpaid, together with a receipt for the money, which will be returned you on application providing entire satisfaction
